(School of Management ,Anhui University of Finance and Economics ,Bengbu Anhui 233030 ,China)

**Abstract :** Based on the expert questionnaire data ,this paper studies the entrepreneurial environment in three cities in Anhui including Wuhu , Hefei and Haozhou through the average value comparison and the variance analysis. The results show that :there exist obvious differences in financial support ,market openness , tangible infrastructure as well as culture and social norm between Hefei and Wuhu ;Bozhou and Wuhu have obvious differences in financial support ,government program ,education and training ,research and development transfer ,commercial environment ,market openness ,tangible infrastructure as well as culture and social norm ;Bozhou and Hefei have obvious differences in financial support ,government program ,research and development transfer as well as market openness. In general ,the entrepreneurial environment in Wuhu is the best ,and that in Hefei is medium ,and that in Bozhou is relatively the worst. Finally ,from the nine aspects of entrepreneurial environment ,it proposes some suggestions on improving the entrepreneurial environment in Anhui in order to reduce the difference of entrepreneurial environment among cities and then to promote the growth of small and medium-sized enterprises.

**Key words :** entrepreneurial environment ; regional economy ; regional difference ; entrepreneurial policy ; Anhui
